SUMMARY

I'm a Full stack software engineer with 6 years of **experience** in the financial, mobility, e-learning, and SaaS industry, employing **agile environments** to collectively build, improve, and maintain stable web applications turning legacy applications into modern architectures, while keeping code quality. I'm proficient in **web and mobile development**, Using for the React, Astro and Nextjs for the **front-end** and React native. And using NodeJs and Golang in the **backend** (Javascript, Php, Go, Docker).

PROFESSIONAL EXPERIENCE

CURIOUS INC

Hengelo, Netherlands

September 2020-Present
